The next Maryland Wing Flight Clinic is scheduled for 9 September 2000 at Martin State Airport. Sign-In is 0800 and class starts promptly at 0830. A notice containing complete information was placed in all unit mailboxes on 21 August 00. If there is enough interest, the clinic will be extended to a two-day clinic and pilots may participate on either 9th or 10th. Please advise me by e-mail, telephone, or a note in my wing mailbox before 1 September if you plan to attend, if you plan to bring an aircraft, and which day is best for you. The decision will be made on 1 September 2000 whether to extend the clinic to a two-day clinic based upon information I receive about expected attendance. I will send out info e-mail announcing the decision on 2 September.

The ES Report (attached below) is due tomorrow. Only the following units have responded: Hagerstown, Annapolis, Howard, Indianhead, Ft. McHenry, Glenn L. Martin. All units must respond, even if you don't have a ground team or aircrew! This is extremely important to National HQ - they need to know what resources we have in our units.

 1. On Monday August 21 at Wing Headquarters during the monthly Group Commanders Meeting, The Wing Commander Col. Vogt, passed on an instruction that came from the CAP National Board meeting in San Antonio Texas.  
 2. The Use of Social Security Numbers on CAP Documents is being phased out. A new Membership Identification System is forth coming from national with a change in the membership cards. The new membership cards should be sent out when you renew and should be a silver color.  
 3. What this means to the unit member.  
     a. You are to discontinue use of Social Security Numbers on Squadron, Activity or Class Sign in sheets or Forms. CAPF 103s Ect.. These Forms are considered Public or have multiple persons listed on them, On these forms when signing into an activity or class you MUST use the exact name that is on your membership card. NO Abbreviated or shortened names. (If your card says James then you do not use Jim.) And your sign in MUST be Legible.  
     b. On Forms that are considered Private like promotion requests or award actions, things that are for your personal record,  
     On these forms the CAP SN or SSN will still be used. Once the new system is in place SSN's will no longer be used on those forms either.  
     c. Lists with SSN's may still be required, to be provided by the USAF and or CAP for Mission Support and authorizations for military services etc.. but will be limited to help protect the privacy of the members.  
 4. This is being done to help provide privacy protection to our members, and to help prevent the possibility of identity theft and alive some members concerns about the use of SSN's for everything and the numbers being accessible to large numbers of people. All the Group Commanders were Briefed on this on Monday 8/21/2000 and should be able to help the unit commanders. CAP News will have more details in an upcoming edition. Any questions can be directed to me through your chain of command.  
 Thank You.

 Just a note - until further guidance is given, CAPF 100s and 101s are considered "private" documents. The SSN will still be used on them.
12. **FROM: Lt. Col. Tom McLellan, GP IV CC [N4984t@aol.com]**

 Capt Doug Lounger has volunteered as the Project Officer for the CAF Air Show 2001. We as CAP are going to reduce our role to only the perimeter and security of the flight line. We will not do any parking, or traffic control, or food booths in Air Show 2001. Capt Lundgren will be sending out a request for "lessons learned" from the past shows. Please respond to him and if you desire to help plan contact him as noted below. We are going to ask for financial support to pay for meals, fuel, and etc. We as CAP are going to ask for a MOU as to what our duties are and what support that the CAF is going to give CAP before we participate in Air Show 2001. Again thank you for your help in the past shows.
